

CALL FOR PAPERS

The Evangelical Theological Society, Northeastern Chapter, will hold its annual meeting
At Mid-America Baptist Theological Seminary in Schenectady, New York
On Saturday April 17, 2010. The theme for the conference is—

"Lessons Learned from the Conservative Resurgence"

The keynote speaker will be Dr. Paige Patterson, President of Southwestern Theological Seminary. At the 2004 National ETS Meetings, Dr. Patterson gave a report of the historic turn around in the Southern Baptist Convention. When finished, Dr. Patterson received a standing ovation from those attending the national meetings.

We can learn and grow from this historical shift within a denomination. That is why the ETS Northeastern regional subcommittee has invited Dr. Patterson to be the guest speaker at its 2010 regional meetings hosted by the Mid-America Baptist Theological Seminary. Session titles for Dr. Patterson's messages are--

Session 1 -- "Theological Drift—World War II to 1979"

Session 2 -- "Roping the Whirlwind—A Renaissance Plan"

Session 3 -- "To Rejoice or Not—An Assessment"

We strongly encourage regional pastors, instructors, and students to write and read papers. We especially hope that regional professors will guide their students through the process of proposing, preparing, and presenting papers at the 2010 meetings.

We are requesting that paper proposals and abstracts
on the conference theme or other topics be sent (preferably electronically) to:

David Deuel
P.O. Box 301
Broadlabin, NY 12025
ddeuel1043@aol.com

Each presentation should be about 30 minutes with 10 minutes of questions and discussion. The deadline for submission of your proposal to present a paper is March 30, 2010. For details and updates, including a download for paper guidelines, which should help you in writing and presenting a paper, see www.etjets.org and select Regions under MENU in the left margin, then select Northeastern region.

Come help our region grow through instruction, worship, and fellowship.
Plan now to join us for the 2010 ETS regional meeting.
